

A picture is worth a thousand words

In regards to the ongoing discussion regarding the LAV, I realized that most people in Aurora do not know what these vehicles look like.

Would it be possible to put a picture in The Auroran of the model that is being suggested to be installed in the Cenotaph/Peace Park area? Many people seem to be unaware of the situation and everyone in Town should at least know what these vehicles look like.

"A picture is worth a thousand words."
